

# Report of Collections deposited in PDD from the 19<sup>th</sup> Annual Fungal Foray to Ohakune, 3-9<sup>th</sup> April 2005

In total there were 438 collections deposited, representing 298 taxa. 3 collections were of species currently flagged as Nationally Critical in DOC's classification (*Ramaria junquilleovortex*, *Squamanita squarrulosa*, *Russula littoralis*), and 67 collections (of 44 taxa) were of records flagged in the DOC classification as Data Deficient (and therefore represent particularly important additions to our knowledge). The following is a list of the collections compiled from the PDD database on 16<sup>th</sup> January 2005. More details on collections may be found on the NZFUNGI website (<http://nzfungi.landcareresearch.co.nz/>)
